Answer Key & Creator Credits

This page is for parents, caregivers and educators. Print pages 1–5 for your Quester; keep this answer key separately.

MISSION 01 • THE MUSEUM BREAK-IN

Missing artifact: the first fragment of the Pharaoh's Map. Main suspect: Viktor Vane. Backpack's activation base: Ade's attic. Viktor's invented code: Water=N, Eye=I, Lion=L, Bird=E. Clue word: NILE.

MISSION 02 • VIKTOR'S TIMELINE TRAP

1. Early pharaohs / unification - around 3100 BCE
2. Great Pyramid of Giza - around 2560 BCE
3. Tutankhamun becomes pharaoh - around 1332 BCE

Larger BCE year numbers refer to earlier dates. Viktor tried to confuse the Questers by mixing up historical chronology.

MISSION 03 • THE HIDDEN AKHET CLUE

The drawing reveals exactly three palm trees, an arrow pointing toward a small village, and the word AKHET. Akhet was the ancient Egyptian season of the Nile flooding. Predictions about the village are open-ended.

PRINTING & LEARNING NOTES

Print at 100% / Actual Size on Letter or A4 paper. Pages 2–4 are designed for handwriting, drawing and discussion. Invite children to explain their reasoning.
